

HAPPY TREE LESSON

How can we make our class room and our homes happy?

By giving it love and attention just like we do with a beautiful tree.

1. Be kind to everyone. That means we don't call each other bad names nor do we say bad things about our classmates.
2. Respect everything: We never break or steal our class mate's toys and things. We are careful with our own toys and things too.
3. Accept everyone even if they wear clothes you don't like or if they look different from you.
4. Play nice with everyone. We don't make our classmates do things they don't want to do nor do we tell them whom they can play with.
5. Do good things to your teachers and classmates without being asked. Help a younger boy or girl. Smile, say a nice compliment or clean up.
6. Share with the teacher if someone is not following the happy tree rules. Remember if you don't tell things might get worse. Telling is the right thing to do.

We do not claim to have all the answers for preventing and eradicating bullying. We encourage everyone to learn more about it and make their own judgment about what to do about it.
